

Benefits of CI/CD

Continuous Integration / Continuous Delivery

What is CI/CD?

Continuous Integration / Continuous Delivery

CI/CD Cost benefits

- ▶ Less developer time on issues from new developer code
- ▶ Less bugs in production and less time in testing
- ▶ Prevent embarrassing or costly security holes
- ▶ Less human error, Faster deployments
- ▶ Less infrastructure costs from unused resources

CI/CD Revenue benefits

- ▶ New value-generating features released more quickly
- ▶ Less time to market
- ▶ Reduced downtime from a deploy-related crash or major bug
- ▶ Quick undo to return production to working state

Thank you for your attention!
